

Open Call

International Forum at the 2024 Theatertreffen of Berliner Festspiele

From 1 January 2024, Nora Hertlein-Hull will assume the directorship of Theatertreffen, which is considered to be the most important presentation platform of German-language theatre. The selection of productions invited to Theatertreffen is based on their outstanding quality of content and aesthetics. This tableau of selected works is regarded as representative of the state of the art of German-language theatre. The festival's accompanying programme will place a special focus on exchange and numerous debates on aesthetics, conditions of production and socio-political discourses, including international perspectives. The goal is to shape Theatertreffen as an exciting opportunity to analyse the status quo and the future of theatre making in the German-language region, both for the audience and for experts.

Beside the ten remarkable productions from the German-language region selected by a jury of seven critics, this year will mark the 60th time that Berliner Festspiele's Theatertreffen will invite artists from around the world to take part in the International Forum, an 18-day exclusive scholarship programme. The International Forum sees itself as a networking platform for young theatre makers, an interdisciplinary laboratory and a self-reflective aspect of Theatertreffen, enabling in-depth analysis of German-language theatre production. The variety of procedures employed by the artists to produce and perceive theatre within their respective working contexts informs the wide range of perspectives within the International Forum. Exploring forms of international co-operation is the basis of the fellows' congregation.

The International Forum's programme includes the presentation of the invited scholarship holders' creative practices, attendance at and analysis of the invited productions, workshops with renowned artists from various disciplines, artist talks, networking meetings with young arts journalists attending the Theatertreffen-Blog and participants of the Open Campus, and open spaces and discussions about current developments in the arts. The artistic and discursive spectrum of each edition of the International Forum results from the respective constellation of invited artists and their specific cultural and experienced-based knowledge, from Theatertreffen's artistic positions as well as from developments and debates within the contemporary art scene and the priorities defined by the heads of International Forum.

This Open Call for the International Forum is addressed at artists up to the age of approx. 35 years from all sectors of the Performing Arts, especially from the fields of directing, acting, set and costume design, dramaturgy, text production, music, video, performance, media, choreography, production management and theatre education.

The International Forum's scholarship is based on five pillars:

- **Attending performances** and other formats of the 2024 Theatertreffen
- **An exclusive programme of performing arts practice** consisting of workshops held by experienced artists, researchers and experts, presentations given by the fellows and task groups working on a range of different issues of content and aesthetics
- **A programme of performing arts theory** consisting of an exchange of ideas with international theatre makers, the expert audience and external experts in the context of discursive events organised by Theatertreffen (presentations, reflection rounds, artist talks)
- **Excursions** exploring Berlin's cultural scene, with opportunities to visit museums and see performances at various theatres in Berlin
- **Networking programmes** which will promote international connections, both between the artists and with cultural institutions (Work Café, Open Spaces, Goethe-Institut)
